

* Nuclear Hoax - Atomic Bomb Do Not Exist. *

Anders Björkman, M.Sc. - Naval Architect and Marine Engineer

The plain and simple truth is that what was used at Hiroshima and Nagasaki was conventional NAPALM bomb.

*The Japanese towns were simply destroyed by conventional napalm carpet fire bombings because compressing two Uranium **metal** pieces to double density with a neutron in between at high pressure **does not result in an explosion.***

An atomic bomb does not work because a nuclear exponential chain reaction of uranium 235, U235, resulting in sudden release of pure energy is not possible and against the LAWS of NATURE. On the website below you will find abundant evidence that nuclear weapons are a HOAX.

*Many of the nuclear explosion videos we have all seen and presumed real are shown to be **complete fakes using model trees, houses and cars exploding on a set.***

The destruction of Hiroshima and Nagasaki appear not to be the result of one large explosion, but rather the result of a fire-bombing campaign comparable in pictures to Tokyo's fire-bombed remains.

Hiroshima and Nagasaki also never experienced anything like the hundreds or thousands of years of radiation predicted by nuclear scientists, in fact, vegetation began growing within a month after the bombing, and the Japanese people began rebuilding almost immediately!

*Some nuclear physicists even claim nuclear weaponry fraudulent based solely on the technical impossibilities of fission material not to be incinerated before triggering the necessary nuclear chain reaction. * **SEE THE FACTS.** **
